Ultimate A-Rated Window Launched

Omega Trade Frames Ltd. has become the first manufacturer in the South West to achieve the prestigious A-Rated Energy Index Window. The new range will be launched as their Ultimate Range, and this will incorporate a full range of A, B and C rated white PVCu windows.

MD John Ellis commented, "The company has worked hard and invested heavily over the past 18 months in achieving the energy rating, and we hope that this will aid our customers to offer a much improved product to help cut energy costs for the consumer."

The company feels that the current PVCu windows in the marketplace have not improved over the past few years, and have therefore taken drastic measures to stay in line with general household appliances and energy saving costs. They have worked hard with both WHS Halo and Saint Gobain to produce one of the most energy efficient PVCu windows in the UK. They hope that this will give their customer base the support they need to maintain their premier position in the market.

The benefits of these energy efficient products can be seen on the BFRC website at www.bfrc.org Contact Omega Trade Frames Tel: 01626 332472.

Energy Window	
Omega Trade Frames Ltd WHS Halo Eclipse PVC-U Casement Omega Ultimate (Rated A) Window	
	A
Energy Index (kWh/m ² /year) <small>(Energy Index certified by BFRC and based on UK standard window. The actual energy consumption for a specific application will depend on the building, the local climate and the indoor temperature)</small>	1
The climate zone is:	UK
Thermal Transmittance (U _{window})	1.4 W/m ² .K
Solar Factor (g _{window})	0.43 W/m ² .K
Effective Air Leakage (L _{factor})	0.00 W/m ³ .K
	Reg. No.: 282 www.bfrc.org
